 ROUNDING OF FIGURES

Many of the figures appearing in the tables have been rounded (to thousands or, in some cases, millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

No. 3—Consolidated Revenue Fund : Revenue and Expenditure classified according to Function

NOTE. This table is designed to show (in respect of the Consolidated Revenue Fund only) the gross and net cost of each function of Government irrespective of the Department or Departments administering these functions. In cases where an activity is such that it involves more than one function, each of its components has been included in that function which is considered to be the most appropriate. For example, in classifying expenditure attributable to child welfare, the custody and care of delinquent children is included under *Law, order and public safety* and the education of children in institutions under *Education*, only the balance being assigned to the item *Welfare*.

Certain functions are performed by semi-government authorities and do not affect the Revenue Fund with the exception of Public Debt operations and various subsidies and recoups, e.g. electricity, banking, insurance, roads. In other cases the Revenue Fund recoups certain losses or receives surplus profits from public enterprises. Public Debt charges are shown as a separate function.

LOAN TRANSACTIONS AND PUBLIC DEBT

No. 5—General Loan Fund : Gross Expenditure classified according to Function

NOTE. This table is designed to show gross expenditure from the General Loan Fund classified according to governmental function. Where an activity is such that it involves more than one function, each of its components has been included in that function which is considered to be the most appropriate. For example, in classifying expenditure attributable to the development of agriculture, the expenditure on Muresk Agricultural College is included under *Education* and expenditure on Ord River land regeneration has been included under 'Soil conservation', only the more general items being assigned to 'Agriculture, pastoral and dairying'.

No. 16—Summary of Commonwealth Government Net Taxation Collections in Western Australia

NOTE. The figures in this table represent the amounts collected in Western Australia but do not necessarily indicate the amount contributed by the people of the State, as moneys may be collected in one State in respect of goods consumed in, or assessments made on account of, other States. Further, administrative arrangements for the collection of certain taxes are such that a large proportion of the revenue (or, as in the case of Wheat Tax, the whole of the revenue) is brought to account in a State other than Western Australia.

No. 17—Net Taxation Collections : State Public Authorities

NOTE. The table below presents figures of the net collections of taxation made by all public authorities in Western Australia. Collections are classified according to the nature of the transaction being taxed rather than by the type of tax employed. Thus stamp duties on betting tickets and revenue from bookmakers' licences, and totalisator licences are included under the heading 'Racing' and not under 'Stamp duties' or 'Licences'.

COMMONWEALTH INCOME TAX

NOTE. Tables 22 to 25 inclusive have been compiled from information supplied in returns made to the Commissioner of Taxation. The information relates to assessments issued during a period of fifteen months, in the case of individuals, and eighteen months in the case of companies, after the close of the year of income.

'Actual income' may be defined briefly as 'gross income' (including exempt income) less expenses incurred in gaining that income. ('Exempt income' includes war and service pensions, social services benefits, income from gold mining and certain income derived from overseas if the income is taxed in the country in which it is derived.)

'Taxable income' is equal to actual income less exempt income and allowable deductions.

FIRE, MARINE AND GENERAL INSURANCE

NOTE. The tables in this section have been compiled from annual returns submitted by insurers transacting business in Western Australia.

The returns do not relate to a uniform accounting period, the actual period varying according to the financial year adopted by individual insurers.

The statistics shown conform substantially to the following definitions and should be interpreted accordingly.

- (i) Premiums represent the full amount receivable in respect of policies issued or renewed during the year, less returns, rebates and bonuses paid or credited to policy holders during the year. They are not adjusted to provide for premiums unearned at the end of the year and consequently the amounts differ from 'earned premium income' appropriate to the year. When figures are increasing, as in recent years, premiums receivable (as shown in the tables) are greater than 'earned premium income' appropriate to the year. The converse applies when figures are declining.
- (ii) Claims include provision for outstanding claims and represent claims or losses incurred during the year. Salvage and other amounts recoverable have been deducted.
- (iii) Contributions to Fire Brigades, Commission, Agents' Charges and Expenses of Management represent mainly charges paid during the year.
- (iv) Taxation represents mainly payments made during the year and includes Income Tax, Pay-roll Tax, Licence Fees, Stamp Duty (where paid by the company), etc.

The tables contain selected items of statistics and the information shown is not suitable for the construction of a 'Profit and Loss' statement or 'Revenue Account'.

FINANCE COMPANIES

NOTE. Investigations into the operations of Finance Companies have shown it is possible that some amounts of 'commercial loans' have been reported as 'mortgage loans'. Until this problem is resolved, 'mortgage loans' will be included with 'other consumer and commercial loans and factoring' in Tables 61-3. Figures for 'commercial loans repayable at call or within 90 days' and for 'factoring', not available separately, are included with the item 'other loans excluding charges' in Tables 62-3.
